A photograph showing a flooded agricultural field. In the background, there are neat rows of young green plants, likely rice seedlings, in a raised bed system. The foreground is dominated by muddy, brown water that has inundated the field, with some green plants partially submerged. The water reflects the sky and the surrounding vegetation. The overall scene suggests a waterlogging or flooding problem in a rice paddy.

سال ۱۴۰۰ سال کم‌آبی بود و متأسفانه این معضل در سال جاری نیز ادامه دارد. این در حالی است که یک پنجم سرانه آب تجدیدپذیر دنیا در ایران است.
